Allowable Subject Matter

1. Claims 25-28, 30-35, 37-41, 43-44 are allowed.

2. The following is an examiner's statement of reasons for allowance:

As to claims 25, 32, 38, the prior art as taught by Lee et al (US. Patent 6,564,219 b1) and Amatsu et al (US. Patent 5,471,615) do not teach or render obvious the limitations recited in claims 25, 32, 38 when taken in the context of the claims as a whole, the first mapping includes a plurality of nodes of a data structure including a first node representing a file system layer at the second storage environment and a second node representing a volume manager layer at the second storage environment, first metadata associated with the file system layer and second metadata associated with the volume manager layer, as recited in the independent claims 25, 32 and 38. Moreover, evidence for modifying the prior art teachings by one of ordinary skill level in the art was not uncovered so as to result in the invention as recited in claims 25, 32 and 38.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
